

WindowsLibraryCapi
/include/NativeToolkitC
/Notification.h

```
graph TD; A["WindowsLibraryCapi  
/include/NativeToolkitC  
/Notification.h"] --> B["NativeToolkitC/Common.h"]; B --> C["stddef.h"]; B --> D["stdint.h"];
```

The diagram illustrates a header file dependency structure. At the top is a grey box containing the path 'WindowsLibraryCapi /include/NativeToolkitC /Notification.h'. A blue arrow points from this box to a white box in the middle containing 'NativeToolkitC/Common.h'. From this middle box, two blue arrows point downwards to two separate light grey boxes at the bottom, labeled 'stddef.h' and 'stdint.h'.

NativeToolkitC/Common.h
